

Kei-Sho Chronicle - December 2021

G'day everyone, I'm Llew. We are nearing the end of the year; the weather is getting colder, and December 20th marks the end of school for the year. It's now time for the winter holidays.

This Issue:
-Closing ceremony
-Winter Holidays

Closing Ceremony:

On December 20th, Kei-Sho held our closing ceremony for the 2nd term, marking the end of school for the year 2021. The ceremony was held with the whole school attending, but it was kept short to protect against Covid-19.

It was unfortunate that we were not able to present awards to the students, but safety comes first.

Winter Holidays:

With the closing ceremony over, Kei-Sho enters the winter holidays. Students will have several weeks to enjoy the holidays before school restarts on January 8th. The winter holidays are a time of cold weather, but also warm food.

Illumination light shows, Christmas events and of course snow are common and with Covid-19 cases being so low, students may be able to enjoy their first 'normal' holiday in a long time. Although it is still important to follow the virus protections which have become so normal. **I hope that everyone makes the most of the winter holidays. I know that I am looking forward to meeting friends I haven't seen in years.**
