

Kei-Sho Chronicle –

September 2022

This Issue:

The End of
Summer

Opening
Ceremony

G'day everyone! Long time, no see!

While the weather is starting to cool down, hot days are still common, and term 2 has started at Kei-Sho.

September is a slow month, so students have time to get used to school life again after almost 7 weeks of vacation.

The End of Summer

With school restarting at Kei-Sho, the 6 weeks of summer vacation have come to an end. With 6 weeks of time to relax and refresh, no doubt all the students have made great memories over the holidays.

In my case, I was able to meet some friends I have not seen in a long time during the summer vacation. I'm sure the students and other teachers at Kei-Sho have similar experiences.

I hope that all the students have had a refreshing holiday and are ready to get back to work.

Opening Ceremony:

As per usual, Kei-Sho started the new school term with a full-school opening ceremony. While it was similar to previous ceremonies, with speeches from the principal and guidance officer, it also included an awards ceremony where students who have done well in different competitions were praised in front of the school.

With the opening ceremony, the summer vacation has ended and Kei-Sho has begun the second term of school, which will continue until December. Good luck! And Work hard everyone!
